

# Release Plan

Rev. 1 - October 6th, 2021

**Product Name:** timetab

**Team Name:** makronii

**Release Name:** Vershun Wun

**Release Date:** November 30th, 2021

## High Level Goals

- Create a modern, accessible website that allows people to communicate when they are available to each other.
- Create an intuitive and easy-to-use method of inputting times.
- Create a website that works well across all devices.

## User Stories for Release

1. As an event planner, I would like to find out when people are free so that I can schedule an event.
  - a. 21 story points
2. As an event attendee, I would like to communicate my availability to the event planner and other attendees so that I can attend the event.
  - a. 21 story points
3. As a person who is editing my availability, I would like to easily add or remove my availability so that I can communicate my availability effortlessly.
  - a. 8 story points
4. As a mobile phone user, I would like to be able to communicate my availability to the event planner and other attendees so that I can attend the event.
  - a. 13 story points
5. As a colorblind person, I would like to be able to communicate my availability to the event planner and other attendees so that I can attend the event.
  - a. 2 story points
6. As a person who is hard of sight, I would like to be able to scale the text and schedule so that I can more easily see what I am doing.
  - a. 1 story points

7. As a team member with teammates in separate time zones, I want to synchronize our schedules so that we don't lose track of people's availability.
  - a. 13 story points

**Product Backlog:**
