

Sprint #2 Plan

Created - October 19, 2021

Rev. 2 - Oct 21, 2021

Product Name: timetab

Team Name: makronii

Goal: Allow users to create events and respond to events through a web interface.

User Stories for Sprint

1. As an event attendee, I would like to communicate my availability to the event planner and other attendees so that I can attend the event. (21 SP)
 1. Implement preliminary web interface shell (3 hours)
 2. Implement functional user input (4 hours)
2. As an event attendee, I would like to communicate my availability to the event planner and other attendees so that I can attend the event. (21 SP)
 1. Routing between main page and event page (1 hour)
 2. Implement preliminary web interface shell (2 hours)
 3. Connect user input to Firebase (2 hours)
 4. Visualize data from Firebase (4 hours)
3. As a person who is editing my availability, I would like to easily add or remove my availability so that I can communicate my availability effortlessly. (8 SP)
 1. Implement functional user input (10 hours)
