

Sprint #1 Plan

Rev. 1 - October 10, 2021

Product Name: timetab

Team Name: makronii

Goal: Allow users to create events through a web interface.

User Stories for Sprint

1. As an event planner, I would like to find out when people are free so that I can schedule an event.
 1. Complete preliminary UI/UX design of website (6 hours)
 2. Implement preliminary web interface shell (3 hours)
 3. Implement functional user input (4 hours)
 4. Set up Firebase app (2 hours)
 5. Connect website to Firebase (2 hours)
