Sprint #2 Report

Created - Nov 2, 2021

Edited - Nov 3, 2021

Product Name: timetab

Team Name: makronii

Actions to Stop Doing:
- Missing/delaying our standups due to forgetfulness/lack of communication

Actions to Start Doing:
- Schedule more time to work collaboratively on tasks
- Break down larger user stories into smaller stories

Actions to Keep Doing:
- Use discord for real time communication
- Talk more about our progress in the shared discord
- Keep track of people's commits to help with accountability

Work Completed/Not Completed:

1. As an event attendee, I would like to communicate my availability to the event planner and other attendees so that I can attend the event. (21 SP)
   1. Implement preliminary web interface shell (3 hours) **Complete**
   2. Implement functional user input (4 hours) **Complete**

2. As an event attendee, I would like to communicate my availability to the event planner and other attendees so that I can attend the event. (21 SP)
   1. Routing between main page and event page (1 hour)
   2. Implement preliminary web interface shell (2 hours) **Complete**
   3. Connect user input to Firebase (2 hours)
   4. Visualize data from Firebase (4 hours)

3. As a person who is editing my availability, I would like to easily add or remove my availability so that I can communicate my availability effortlessly. (8 SP)
   1. Implement functional user input (10 hours) **Complete**

Work Completion Rate:
While we achieved our ideal hours, we are still behind on what we wished to complete this sprint, so we will have to meet about what about our product plan we need to change. We also

had a bit of uneven distribution of work where some members worked more than others, so we will need to discuss this as well.
